what is this?

?GITHUB?

Ever wanted a keyboard that functioned like a laptop keyboard but bluetooth, Introducing Keytop, a bluetooth keyboard that does just that

what does it have?

47x Kailh Choc V2 switches, for the klickity clacking

MCP23017-E/SP, for the extra pins!

Seeed Studio XIAO nRF52840, using this for its battery module and bluetooth capabilities

TPS65-201A-S, it's the trackpad module!

1000mAh 3.7V Lipo Battery, a long lasting battery
